# 1 Introduction

## Overview

---

About the System      The Texas Department of Mental Health and Mental Retardation (TDMHMR) has assumed the responsibility of registering and tracking ICF/MR consumers, a function previously maintained by the Texas Department of Human Services (TDHS).

Consumers entering an ICF/MR (Intermediate Care Facility for persons with Mental Retardation) must be registered into the Client Assignment and Registration (CARE) system. An Internet World Wide Web (Web) interface allows ICF/MR non-state providers to register clients into the CARE system and enter MR/RC Assessments and client movement information. State operated providers use 3270 emulation to access CARE and enter the same information. This information will establish a consumer's service authorization, which will be routed through the TDHS Service Authorization System (SAS) to the National Heritage Insurance Company Claims Management System (CMSconnect). Thereafter, the provider can enter a claim using CMSconnect.

---

Non-State  
Operated Provider      A non-state operated provider is a private business that provides ICF/MR services and is not affiliated with a state facility or SOCS. Community MHMR Centers are considered non-state operated providers.

---

State Operated  
Provider      A state operated provider is a state facility (state school or state center) or SOCS (State Operated Community Services) that provides ICF/MR services.

---

Documentation      This documentation has been prepared for state operated providers (state facilities and SOCS) and community MHMR centers.

### System Functions

The ICF/MR system contains three on-line functions.

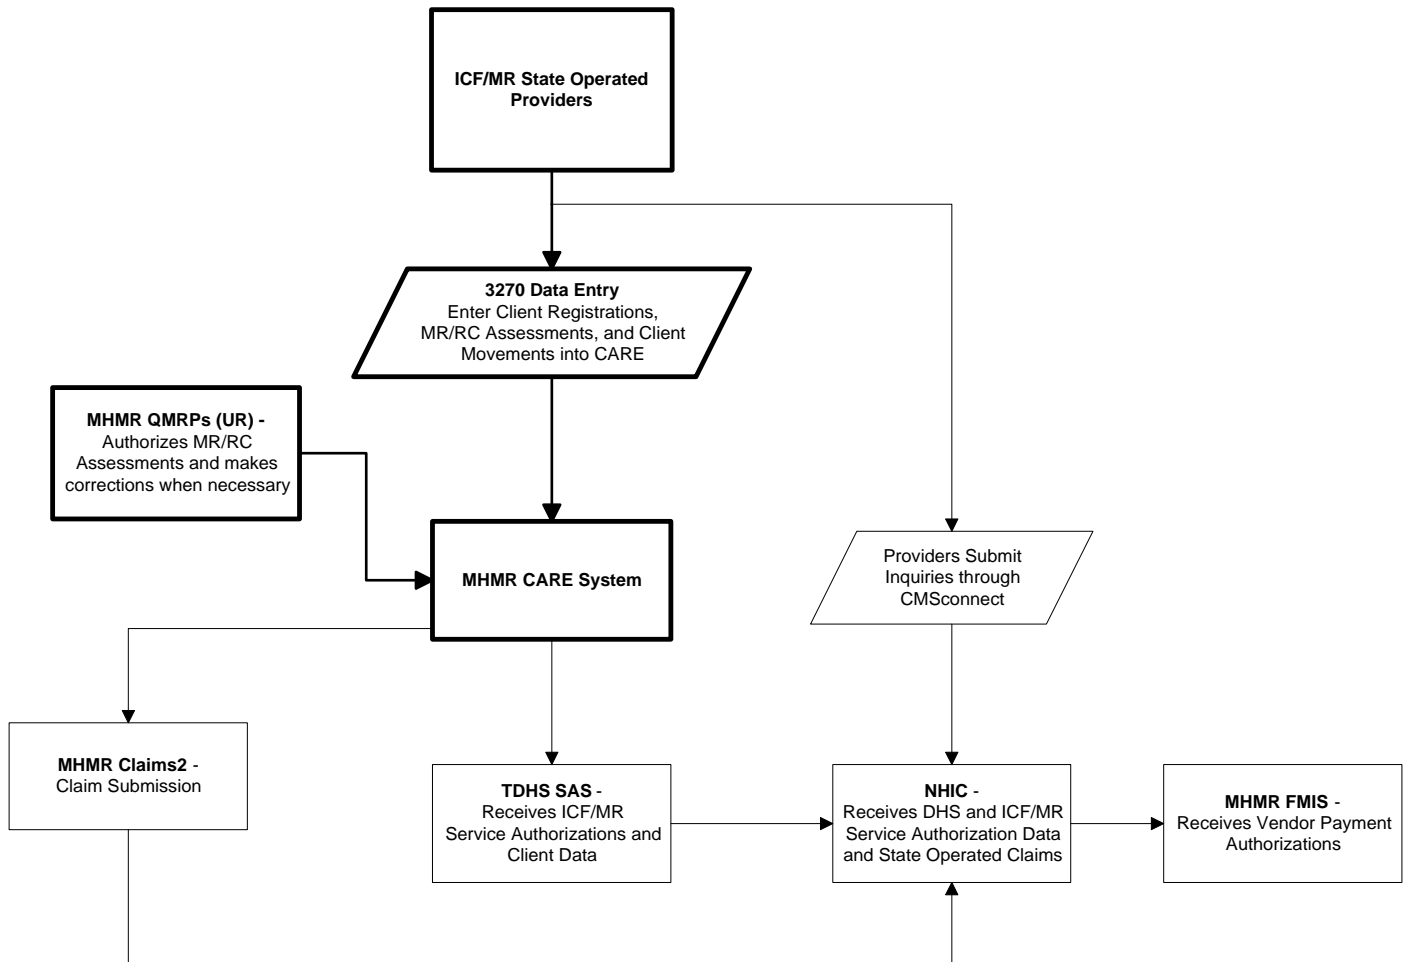

<b>Function</b>	<b>Description</b>
<b>ICF/MR Data Entry and Update</b>	Using the ICF/MR Data Entry and Update screens, the provider can: <ul style="list-style-type: none"><li>• register a consumer</li><li>• submit client movements</li><li>• submit MR/RC assessments</li><li>• update consumer demographics, name, and address</li><li>• update correspondent information</li></ul>
<b>ICF/MR Inquiry</b>	Using the ICF/MR Inquiry screens, the provider can view: <ul style="list-style-type: none"><li>• all client movements</li><li>• MR/RC Assessment summary</li><li>• MR/RC pending assessments</li></ul>

Providers

The following chart shows the overall picture of the ICF/MR System as it relates to non-state operated providers. The items in bold indicate the procedures covered in this manual.

## Authorization

---

### Access

To obtain access authorization to use the ICF/MR system, submit the ICF/MR Automated System Provider Access Form - IS 098 to the person listed at the bottom of the form.

The authorization process takes up to a week to complete. Information Services (IS) at Central Office will notify you of your user number and *temporary* password.

---

### Change Password

We recommend that you change your *temporary* password to one that is meaningful to you.

You can change your password as often as you want. The system requires that you change your password periodically. See *Accessing ICF/MR – Mainframe/3270* and *Accessing ICF/MR – Web Applications* in the **Procedures** section of this manual for instructions on how this change can be accomplished.

---

### Other Required Forms

Other forms required for authorization and access are:

- ICF/MR Automated System Access Authorization Designees
- Non-Disclosure Agreement

To obtain forms to access TDMHMR ICF/MR or HHSCNet dial-up forms, or if you have any access questions, contact Medicaid Administration at (512) 206-5577. A copy of each of the security forms is included in the *Appendices* of this document.

---

## PC System Configuration Information

---

**Introduction** The Texas Department of Mental Health and Mental Retardation operates an automated registration and service authorization system for the ICF/MR program. This information is being used in the Claims Management System (CMS) in conjunction with CMSconnect (NHIC's claims submission/processing system). CMSconnect allows providers to electronically submit/process claims and access service authorization information. To have access to these systems, the provider must have a PC system.

---

**Minimum Requirements for New PC System** If you are purchasing a new PC system, the following minimum configuration should be purchased:

- Pentium 200 (or better) IBM Compatible PC
  - 2GB Hard Disk (or larger to meet the user's needs)
  - 32 Meg RAM
  - US Robotics Sportster: 56k modem
  - Windows '95
- 

**Minimum Requirements for Existing PC System** If you have an existing PC system, the following are the minimum requirements:

- 486DX-33 or better
  - 500 Meg Hard Disk (or larger to meet the user's needs)
  - 16 Meg RAM
  - 14.4 Baud modem
- Note: If a 28.8 Baud modem is selected, *must* be v32, v33, or v34 compliant.
- Windows 3.1, Windows for Work Groups 3.11, or Windows '95
- 

**Required Software** Software required to access and use the Web applications is the latest version of one of the following Web browsers:

- Microsoft Explorer
  - Netscape Navigator
- 

**Other Considerations**

- Analog phone lines are required for dial-up access.
- DOS or Macintosh operating systems will not be supported.

---

**Questions** If you have any questions or require additional information, contact Medicaid Administration at (512) 206-5577.

---

## Hardware and Software Support

---

Using Applications State operated providers and Community MHMR Centers already have the means to access the ICF/MR system. Contact the computer technical support department at your location for information.

---

Technical Support To effectively use applications in this system, it is important to have the technical expertise required to install and maintain your hardware and software. TDMHMR will not install and/or maintain the customer's hardware or software.

To successfully access the applications, you must follow your hardware/software installation directions precisely and install each item according to the manufacturer's directions. TDMHMR does not take responsibility for installation of your equipment.

As there are many combinations of hardware and software that you could be using, TDMHMR cannot resolve every problem you may encounter. You will need to rely on your technical expert for information concerning your hardware, software, and communications setup.

---

## Computer Access (for Non-State Operated Providers)

---

Operational Hours      The system operates 24 hours a day 7 days a week with the exception of scheduled maintenance or unexpected system downtime. Although dial-up access is available 24 hours a day, HHSCNet support is available only during regular work hours (Monday through Friday 7:00 a.m. - 7:00 p.m.). Enterprise Service Desk support is limited to the availability of the HHSCN backbone dial-up connect.

---

### Other Required Forms

Other forms required for authorization and access are:

- ICF/MR Automated System Access Authorization Designees
- ICF/MR Automated System Provider Access Form – IS 098
- Non-Disclosure Agreement

To obtain forms to access TDMHMR ICF/MR or if you have any access questions, contact Medicaid Administration at (512) 206-5577. A copy of each of the security forms is included in the *Appendices* of this document.

---

## 2 Procedures

---

**Introduction** The *Procedures* section of the manual contains work process flow charts or diagrams and describes the general steps used for each process. This section is not intended to provide detailed instructions for each procedure. For more detailed instructions, refer to the appropriate screen in the *Screens/Field Tables* section of this manual.

---

**Recommendation** State operated providers and community MHMR centers can use mainframe/3270 or the web to access ICF/MR, but consumer registration and name search are limited on the web due to client confidentiality legislation. Therefore, *our recommendation is access through the mainframe/3270.*

---

**In This Section** This section contains an overview of the basic work processes that ICF/MR providers must apply, followed by general steps used for the following procedures:

<b>Procedure</b>	<b>Page</b>

## ICF/MR Work Processes

---

Work Processes ICF/MR providers must apply three basic work processes to allow for the registration and tracking of ICF/MR consumers:

- Client registration in CARE
- Client movement entry
- MR/RC assessment entry

Note: Unless otherwise specified, action codes are the same for both the mainframe/3270 and web applications.

---

CARE Registration All consumers not in the CARE system must be registered.

- If you access ICF/MR through the mainframe/3270, use Action Code **325** to register a consumer.

Note: If a consumer is already registered, use Action Codes **410**, **413**, **420**, **430**, and **431** to update demographics.

---

Previous ICF/MR Consumer If a consumer previously resided in an ICF/MR facility, the following work processes will apply.

**If the consumer has a current MR/RC Assessment:**

- Use Action Code **410** to add a Local Case Number if one has not been assigned.
- Enter a client movement (admission):
  - State operated campus-based providers use Action Code **305**
  - State operated community providers use Action Code **336**
  - Community MHMR centers use Action Code **337**

**If the consumer has no MR/RC Assessment:**

- Use Action Code **410** to add a Local Case Number if one has not been assigned.
  - Enter a client movement (admission):
    - State operated campus-based providers use Action Code **305**
    - State operated community providers use Action Code **336**
    - Community MHMR centers use Action Code **337**
  - Use Action Code **1123** to enter an MR/RC Assessment.
-

## ICF/MR Work Processes, Continued

---

### Discharges

When a consumer is discharged from an ICF/MR facility, the provider enters the discharge by entering the End Date on the current client movement as follows:

- State operated campus-based providers use Action Code **310**
- State operated community providers use Action Code **336**
- Community MHMR centers use Action Code **337**

Note: Date of discharge is *not* billable except when discharge is due to consumer's death and the consumer died at the component.

---

### Transfers

When a consumer transfers from one ICF/MR component to another or transfers from one contract to another within the same component,

- the provider from which the consumer leaves or who holds the contract from which the consumer is transferring enters the discharge.
- the provider that admits that same consumer or who holds the new contract then enters the admission.

To accomplish these processes,

- State operated campus-based providers use Action Code **310**
- State operated community providers use Action Code **336**
- Community MHMR centers use Action Code **337**

*The admission cannot be entered before the discharge.*

Note: The consumer's MR/RC Assessment transfers with him/her. The new provider should look at Action Code **1168** to see when the consumer's next MR/RC Assessment is due.

---

## ICF/MR Work Processes, Continued

---

Process Order for  
New ICF/MR  
Consumers

Two examples are provided to determine the process order for new ICF/MR consumers.

**If the consumer is a new ICF/MR consumer and will be admitted in two weeks:**

- Use Action Code **325** through the mainframe/3270 or Action Code **326** on the Web to register the consumer.
- Use Action Code **1123** to enter an MR/RC Assessment.
- Enter a client movement (admission) when the consumer is actually admitted as follows:
  - State operated campus-based providers use Action Code **305**
  - State operated community providers use Action Code **336**
  - Community MHMR centers use Action Code **337**

**If the consumer is a new ICF/MR consumer and was admitted last week:**

- Use Action Code **325** through the mainframe/3270 or Action Code **326** on the Web to register the consumer.
  - Enter a client movement (admission) as follows:
    - State operated campus-based providers use Action Code **305**
    - State operated community providers use Action Code **336**
    - Community MHMR centers use Action Code **337**
  - Use Action Code **1123** to enter an MR/RC Assessment.
- 

Note

Action Code 336 can be used on the web by community MHMR centers who are responsible for client movements in state operated ICF/MR facilities.

## Client Registration Using Mainframe/3270

---

### Introduction

The registration function of CARE allows a provider to add, update, and display a consumer's identifying and demographic data and component identifying information. It is used to generate a unique, statewide client identification number and to record such data as consumer name, sex, ethnicity, birthdate, social security number, presenting problem, address, county of residence, Medicaid number, Medicare number, and local case number.

ICF/MR uses the CARE System database to maintain an unduplicated count of consumers. The registration process attempts to ensure that consumers are registered only once.

---

### Consumer Registration

The 325: Register Client: Client ID screens are used to register new consumers in CARE.

---

### Previously Registered Consumers

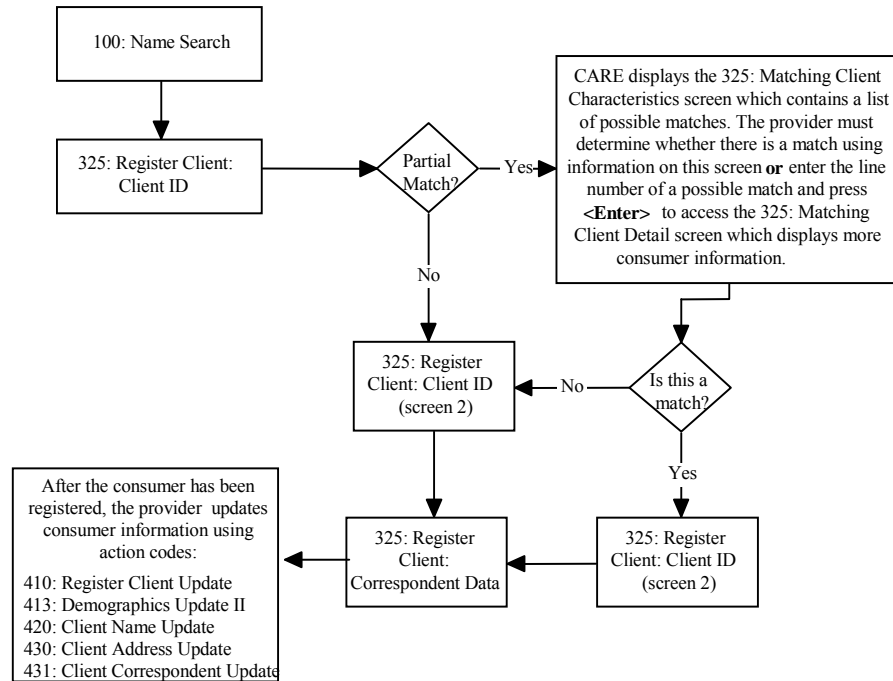

For consumers already registered in CARE, the provider must update the consumer's demographic data. Use the following CARE action codes to update consumer information:

- 410: Register Client Update
  - 413: Medicaid/Medicare Number Update
  - 420: Client Name Update
  - 430: Client Address Update
  - 431: Client Correspondent Update
-

## Possible Client Matches – Mainframe/3270

---

**Introduction** Before a client ID is generated, the system searches the database to determine whether the new information matches the demographics of any previously registered client. The following describes what happens if the system finds no match, an exact match, or a possible match.

---

**No Match** If no match is found (the consumer is not registered), the 325: Register Client: Client ID screen is displayed with the information just entered and the message, “*ID WILL BE DISPLAYED ON NXT SCRN*” in the upper right portion of the screen. To continue with the registration:

- Key **Y** in the READY TO ADD? field
- Press <**Enter**>.

Result: The 325: Register Client: Correspondent Data screen is displayed.

---

**Exact Match** If an exact match is found (the consumer is already registered in CARE), the second 325: Register Client: Client ID screen is displayed with the information just entered and the client ID in the CLIENT ID field. To continue with the registration:

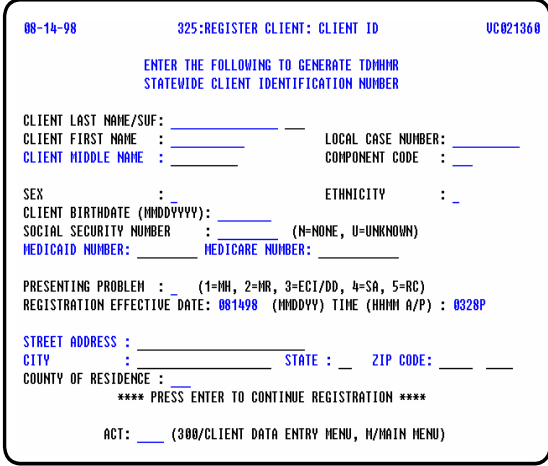

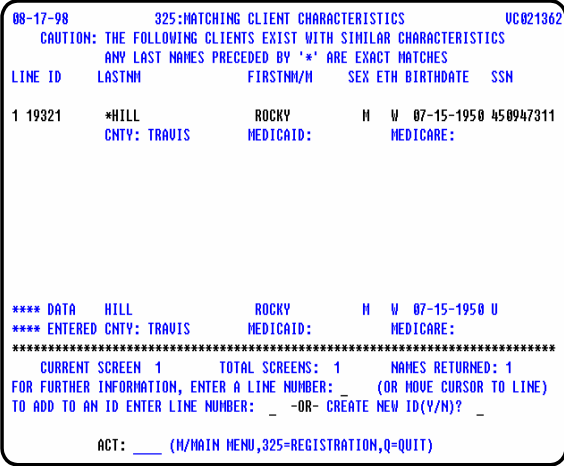

- Key **Y** in the READY TO ADD? field
- Press <**Enter**>.

Result: The 325: Register Client: Correspondent Data screen is displayed.

## Client Movements Using Mainframe/3270

---

### Introduction

*Client Movements Using Mainframe/3270* describes the procedures involved in adding, updating, and displaying a consumer's movements. Client movements include admissions, discharges, absences, and returns from absence.

---

### Client Movement Entry

Entry of client movements depends on the type of client movement you are processing.

<b>If you are entering...</b>	<b>then you would use...</b>
a state operated <i>campus-based</i> client movement	the <u>305: Campus-based Assignment</u> screens to enter assignments and the <u>310: Campus-based Discharge/Community Placement</u> screens to enter discharges.
a state operated <i>community</i> client movement	the <u>336: State Operated Client Movements</u> screens to enter client movements.
a community center client movement	the <u>337: Non-State Operated Client Movements</u> screens to enter client movements.

*Client Movements Using Mainframe/3270* describes the procedures for entering each of these three types of client movements.

## Critical Incident Data Using Mainframe/3270

---

### Introduction

The *Critical Incident Data* process allows a provider to add, change, or delete critical incident data.

---

### Critical Incident Data Entry

The entry of critical incident data is required on a monthly basis for *all* of the contracts administered by a provider, including contracts for waiver programs and ICF/MR. Critical incident data must be entered *no later than* 30 days from the end of the month being reported. For example, the data reported in the month of September will reflect data that was entered in August.

When adding critical incident data, the fields on the **686: Critical Incident Data: Add** screen will clear to allow for multiple entries of the contracts for your component, and the number of contracts entered is displayed.

Providers can use the **286: Critical Incident Data: Inquiry** screen to review the Critical Incident Data entered.

---

### Reportable Data

The following information provides terms and definitions used on the Critical Incident Data screens.

Term	Definition
<b>Medication Error</b>	<p>A medication error is reported when there is a discrepancy between what a physician prescribes and what an individual actually takes and the individual self-administers medication under supervision of the Program Provider or has medication administered by the Program Provider. A medication error occurs in one of three ways:</p> <ul style="list-style-type: none"> <li>• <b>Wrong medication</b> - an individual takes medication that is not prescribed for that individual. This includes taking medication after it has been discontinued or taking the incorrect medication because it was inappropriately labeled.</li> <li>• <b>Wrong dose</b> - an individual takes a dose of medication other than the dose prescribed.</li> <li>• <b>Omitted dose</b> - an individual does not take a prescribed dose of medication within one hour before or one hour after the prescribed time, except an omitted dose does not include an individual's refusal to take medication.</li> </ul>
<b>Serious Injury</b>	<p>A serious physical injury is reported, regardless of the cause or setting in which it occurred, when an individual sustains:</p> <ul style="list-style-type: none"> <li>• a fracture;</li> <li>• a dislocation of any joint;</li> <li>• an internal injury;</li> <li>• a contusion larger than 2½ inches in diameter;</li> <li>• a concussion;</li> <li>• a second or third degree burn;</li> <li>• a laceration requiring sutures; or</li> <li>• an injury determined serious by a physician, physician assistant, registered nurse, or a vocational nurse.</li> </ul>

Term	Definition
<b>Behavior Intervention Plan Authorizing Restraint</b>	<p>A behavior intervention plan is reported if it authorizes a personal, mechanical or psychoactive medication, as defined below, for an individual.</p> <ul style="list-style-type: none"> <li>• <b>Personal restraint</b> - the application of pressure, except physical guidance or prompting of brief duration that restricts the free movement of part or all of an individual's body.</li> <li>• <b>Mechanical restraint</b> - the use of a device that restricts the free movement of part or all of an individual's body. Such a device includes an anklet, a wristlet, a camisole, a helmet with fasteners, a mitt with fasteners, a posey, a waist strap, a head strap, and a restraining sheet. Such a device does not include one used to provide support for functional body position or proper balance, such as a wheelchair belt, or one used for medical treatment, such as a helmet to prevent injury during a seizure.</li> <li>• <b>Psychoactive medication</b> - the use of a chemical, including a pharmaceutical, through topical application, oral administration, injection, or other means, to control an individual's activity and which is not a standard treatment for the individual's medical or psychiatric condition.</li> </ul>
<b>Emergency Personal Restraint</b>	<p>An emergency personal restraint is reported when the Program Provider uses a personal restraint, as defined above, and such restraint is not authorized in a written behavior intervention plan approved by the individual's IDT.</p>
<b>Emergency Mechanical Restraint</b>	<p>An emergency mechanical restraint is reported when the Program Provider uses a mechanical restraint, as defined above, and such restraint is not authorized in a written behavior intervention plan approved by the individual's IDT.</p>
<b>Emergency Psychoactive Medication (Formerly Chemical Restraint)</b>	<p>An emergency psychoactive medication is reported when the Program Provider uses a psychoactive medication, as defined above and such restraint is not authorized in a written behavior intervention plan approved by the individual's IDT.</p>
<b>Individual Requiring Emergency Restraint</b>	<p>An individual is reported as requiring emergency restraint if the individual is restrained (by either personal or mechanical restraint or psychoactive medication) at least once during a calendar month. If an individual is restrained more than once during a calendar month, the individual is reported only once for that month.</p>
<b>Restraint Related Injury</b>	<p>A restraint related injury is a serious injury sustained by an individual that is clearly related to the application of a personal restraint, an emergency mechanical restraint, or an emergency psychoactive medication administered to an individual. Reportable injuries in this category are not due to self-injury that occurred prior to the application of restraint. Serious injuries sustained during the application of a restraint that are investigated by DFPS as an allegation of abuse, neglect or exploitation must be included in CIRS reporting for this category.</p>

## Accessing ICF/MR – Web Applications

### Access Procedure

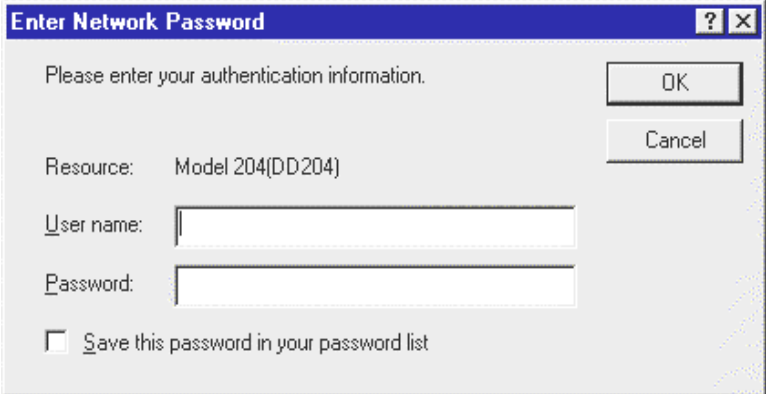

The following procedure describes the steps used to access the ICF/MR automated system using the Web.

Step	Action
1	Dial in to the HHSCNet.
2	Access your browser. <u>Note:</u> Internet Explorer 4.0 is used in the examples below. If you are using another browser/version, your security alert and signon screens may be different.
3	Using your browser, access the following web address: <b>https://txmhm.mhmr.state.tx.us:3610/prod/wcare/m</b> <u>Result:</u> Three <u>Security Alert</u> dialogue boxes are displayed in succession. The first is shown below.  <ul style="list-style-type: none"> <li>• Read the Security Alert.</li> <li>• Check <b>IN THE FUTURE, DO NOT SHOW THIS WARNING</b> so that this dialogue box will not be displayed when you access this address again.</li> <li>• Click <b>OK</b> to proceed.</li> </ul> <u>Result:</u> The second dialogue box is displayed.
4	A sample of the second <u>Security Alert</u> dialogue box is shown below.  <ul style="list-style-type: none"> <li>• Read the Security Alert.</li> <li>• Click <b>Yes</b> to proceed.</li> </ul> <u>Note:</u> This dialogue box will continue to be displayed each time you access this web address. <u>Result:</u> The third dialogue box is displayed.

## Client Registration Using the Web

---

### Introduction

*Client Registration Using the Web* describes the procedures involved in using web applications to interface with the CARE system to register consumers.

The registration function of CARE allows a provider to add, update, and display a consumer's identifying and demographic data and component identifying information. It is used to generate a unique, statewide client identification number and to record such data as consumer name, sex, ethnicity, birthdate, social security number, presenting problem, address, county of residence, Medicaid number, Medicare number, and local case number.

The ICF/MR automated system uses the CARE system database to maintain an unduplicated count of consumers. The registration process attempts to ensure that consumers are registered only once.

---

### Consumer Registration

The 326: Client Registration – Limited web screen is used to register new consumers in CARE.

**Note:** This registration is limited due to client confidentiality legislation. *Community MHMR centers are urged to use mainframe/3270 Action Code 325 for client registration.*

---

### Previously Registered Consumers

For consumers already registered in CARE, the provider must update the consumer's demographic data. Use the following demographics update screens to update consumer information:

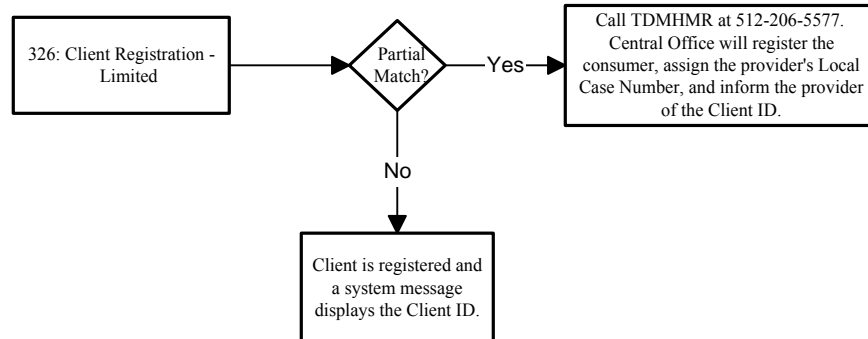

- 413: Medicaid/Medicare Number Update
  - 420: Client Name
  - 430: Client Address
  - 431: Client Correspondent
-

## Client Registration Process – Web

---

### Registration Process

The following flow chart displays the client registration process for community MHMR centers that access ICF/MR through the web.

## Possible Client Matches – Web

---

### Introduction

Before a client ID is generated, the system searches the database to determine whether the new information matches the demographics of any previously registered client. The following describes what happens if the system finds no match or a possible match.

---

### No Match

If no match is found (the consumer is not registered), the 326: Client Registration – Limited screen is displayed with the system message, *"New ID is \_\_\_\_\_."*

---

### Possible Match

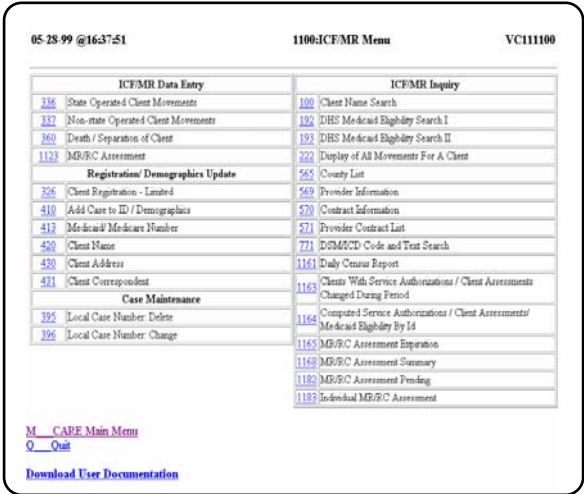

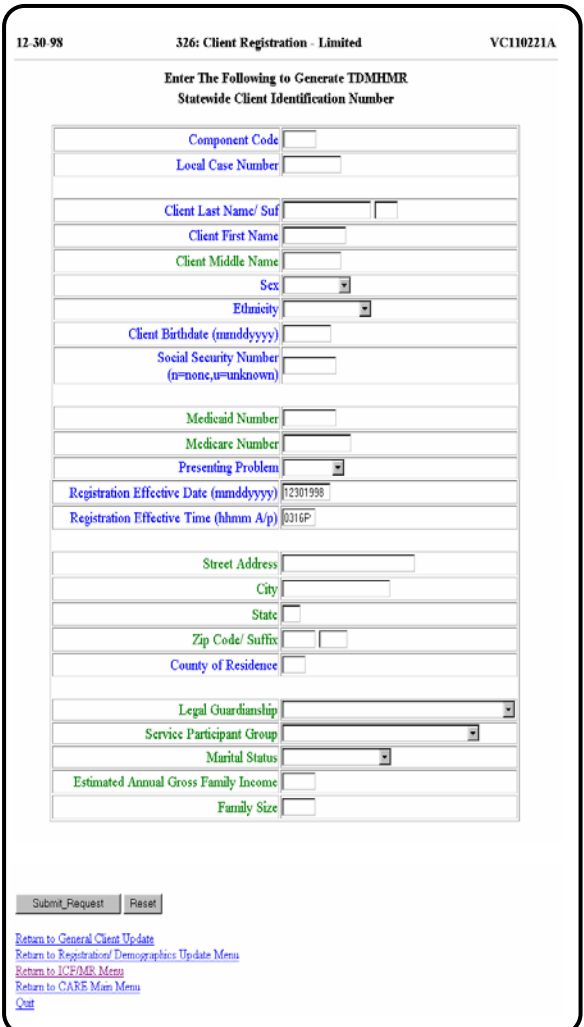

If a possible match is found (the consumer may already be registered in CARE), the 326: Client Registration – Limited screen is redisplayed with the message *"Possible Match – Call TDMHMR Central Office to Register Person"*. You must call Medicaid Administration at 512-206-5577 for assistance in registering the consumer.

## Client Movements Using the Web

---

### Introduction

*Client Movements Using the Web* describes the procedures involved in using web applications to interface with the CARE system to add, update, and display a consumer's movements.

Client movements include admission, discharge, absences, and return from absence.

---

### Client Movement Entry

Community MHMR centers use the 337:Non-State Operated Client Movement screens on the web to enter client movements.

Note: 336: State Operated Client Movements can be used on the web by community MHMR centers who are responsible for client movements in state operated ICF/MR facilities.

## Critical Incident Data Using the Web

---

### Introduction

*Critical Incident Data Using the Web* describes the procedures involved in using web applications to interface with the CARE system to enter critical incident data.

---

### Critical Incident Data Entry

The [686: Critical Incident Data](#) screens are used to enter critical incident data. The entry of critical incident data is required on a monthly basis for *all* of the contracts administered by a provider, including contracts for waiver programs and ICF/MR. Critical incident data must be entered *no later than 30 days* from the end of the month being reported. For example, the data reported in the month of September will reflect data that was entered in August.

Providers can use the [286: Critical Incident Data: Inquiry](#) to review the Critical Incident Data entered.

---

### Reportable Data

The following information provides terms and definitions used on the Critical Incident Data screens.

Term	Definition
<b>Medication Error</b>	A medication error is reported when there is a discrepancy between what a physician prescribes and what an individual actually takes and the individual self-administers medication under supervision of the Program Provider or has medication administered by the Program Provider. A medication error occurs in one of three ways: <ul style="list-style-type: none"><li>• <b>Wrong medication</b> - an individual takes medication that is not prescribed for that individual. This includes taking medication after it has been discontinued or taking the incorrect medication because it was inappropriately labeled.</li><li>• <b>Wrong dose</b> - an individual takes a dose of medication other than the dose prescribed.</li><li>• <b>Omitted dose</b> - an individual does not take a prescribed dose of medication within one hour before or one hour after the prescribed time, except an omitted dose does not include an individual's refusal to take medication.</li></ul>
<b>Serious Injury</b>	A serious physical injury is reported, regardless of the cause or setting in which it occurred, when an individual sustains: <ul style="list-style-type: none"><li>• a fracture;</li><li>• a dislocation of any joint;</li><li>• an internal injury;</li><li>• a contusion larger than 2½ inches in diameter;</li><li>• a concussion;</li><li>• a second or third degree burn;</li><li>• a laceration requiring sutures; or</li><li>• an injury determined serious by a physician, physician assistant, registered nurse, or a vocational nurse.</li></ul>

Reportable Data, continued

Term	Definition
<b>Behavior Intervention Plan Authorizing Restraint</b>	<p>A behavior intervention plan is reported if it authorizes a personal, mechanical or psychoactive medication, as defined below, for an individual.</p> <ul style="list-style-type: none"> <li>• <b>Personal restraint</b> - the application of pressure, except physical guidance or prompting of brief duration that restricts the free movement of part or all of an individual's body.</li> <li>• <b>Mechanical restraint</b> - the use of a device that restricts the free movement of part or all of an individual's body. Such a device includes an anklet, a wristlet, a camisole, a helmet with fasteners, a mitt with fasteners, a posey, a waist strap, a head strap, and a restraining sheet. Such a device does not include one used to provide support for functional body position or proper balance, such as a wheelchair belt, or one used for medical treatment, such as a helmet to prevent injury during a seizure.</li> <li>• <b>Psychoactive medication</b> - the use of a chemical, including a pharmaceutical, through topical application, oral administration, injection, or other means, to control an individual's activity and which is not a standard treatment for the individual's medical or psychiatric condition.</li> </ul>
<b>Emergency Personal Restraint</b>	<p>An emergency personal restraint is reported when the Program Provider uses a personal restraint, as defined above, and such restraint is not authorized in a written behavior intervention plan approved by the individual's IDT.</p>
<b>Emergency Mechanical Restraint</b>	<p>An emergency mechanical restraint is reported when the Program Provider uses a mechanical restraint, as defined above, and such restraint is not authorized in a written behavior intervention plan approved by the individual's IDT.</p>
<b>Emergency Psychoactive Medication (Formerly Chemical Restraint)</b>	<p>An emergency psychoactive medication is reported when the Program Provider uses a psychoactive medication, as defined above and such restraint is not authorized in a written behavior intervention plan approved by the individual's IDT.</p>
<b>Individual Requiring Emergency Restraint</b>	<p>An individual is reported as requiring emergency restraint if the individual is restrained (by either personal or mechanical restraint or psychoactive medication) at least once during a calendar month. If an individual is restrained more than once during a calendar month, the individual is reported only once for that month.</p>
<b>Restraint Related Injury</b>	<p>A restraint related injury is a serious injury sustained by an individual that is clearly related to the application of a personal restraint, an emergency mechanical restraint, or an emergency psychoactive medication administered to an individual. Reportable injuries in this category are not due to self-injury that occurred prior to the application of restraint. Serious injuries sustained during the application of a restraint that are investigated by DFPS as an allegation of abuse, neglect or exploitation must be included in CIRS reporting for this category.</p>

## Exiting ICF/MR – Web Applications

---

### Exit Procedure

You can exit the system by using the **Q (Quit)** option available on any of the ICF/MR web screens.

<b>Step</b>	<b>Action</b>
1	Click <b>Q Quit</b> at the bottom of any screen. <u>Result:</u> The <u>CARE Signoff</u> screen is displayed.
2	Exit your Internet browser.

Note: The CARE Signoff screen also offers the option to Return to Signon. By clicking that option, you are returned to the CARE Access Verification screen to logon to the system again.

This page was intentionally left blank.

### 3 Screens/Field Tables

---

#### Introduction

The *Screens/Field Tables* section of the User Guide displays sample mainframe/3270 and Web screens containing fictitious consumer information. These screens are followed by field tables that list the fields on each screen and provide specific descriptions about those fields.

---

#### Add/Change/Delete

When using the data entry screens, you will add, change, and delete records.

<b>Use...</b>	<b>to...</b>
<b>Add</b>	add a new record.
<b>Change</b>	change incorrect information on a record.
<b>Delete</b>	erase a record entered in error.

---

## Registration - Mainframe/3270

---

### Introduction

The registration function of CARE allows a provider to add, update, and display a consumer's identifying and demographic data and component identifying information. It is used to generate a unique, statewide client identification number and to record such data as consumer name, sex, ethnicity, birthdate, social security number, presenting problem, address, county of residence, Medicaid number, Medicare number, and local case number.

ICF/MR uses the CARE System database to maintain an unduplicated count of consumers. The registration process attempts to ensure that consumers are registered only once.

---

### Consumer Registration

The 325: Register Client: Client ID screens are used to register new consumers in CARE.

---

### Previously Registered Consumers

For consumers already registered in CARE, the provider must update the consumer's demographic data. Use the following CARE action codes to update consumer information:

- 410: Register Client Update
  - 413: Medicaid/Medicare Number Update
  - 420: Client Name Update
  - 430: Client Address Update
  - 431: Client Correspondent Update
-

## 325: Register Client: Client ID

### Introduction

The 325: Register Client: Client ID screens are used to register consumers in CARE and to generate a statewide client ID. When you have completed the information on screen 1, before a client ID is generated, the system searches the database to determine whether the new information matches the demographics of any previously registered consumer. If no match is found, screen 2 is displayed.

### How to Access

To access the 325: Register Client: Client ID screen:

- Key **325** in the ACT: field of any screen.
- Press **<Enter>**.

### Register Client: Client ID (Screen 1)

Use the 325: Register Client: Client ID screen to register a consumer. A sample screen is shown below.

## Possible Client Matches

Introduction	Before a client ID is generated, the system searches the database to determine whether the new information matches the demographics of any previously registered consumer. The following describes what happens if the system finds no match, an exact match, or a possible match.
No Match	If no match is found (the consumer is not registered), the <u>325: Register Client: Client ID</u> screen is displayed with the information just entered and the message, “ <i>ID WILL BE DISPLAYED ON NXT SCRIN</i> ” in the upper right portion of the screen.
Exact Match	If an exact match is found (the consumer is already registered in CARE), the second <u>325: Register Client: Client ID</u> screen is displayed with the information just entered and the client ID in the CLIENT ID field.
Possible Match	If a possible match is found, the <u>325: Matching Client Characteristics</u> screen is displayed. Use the following steps to determine whether there is a match. Begin with the <u>325: Register Client: Client ID</u> screen as displayed below.

Step	Screen	Action

## Appendix A

### ICF/MR Automated System Terminology

Term	Definition
<b>CARE</b>	TDMHMR's centralized confidential client database, which registers and tracks consumers receiving services from TDMHMR.
<b>Central Office</b>	The TDMHMR site, located in Austin, which houses the agency's administrative offices, including the Office of Medicaid Administration.
<b>Claim</b>	A request for payment of services from a provider for a single client that consists of one or more types of services performed for the client and may span multiple months. Claims may be submitted electronically or through NHIC's CMSconnect system.
<b>Client Identification Number (Client ID/CARE ID)</b>	Unique statewide identifier generated by the CARE system for each consumer registered by TDMHMR. This ID follows the consumer to any entity of TDMHMR.
<b>Client/Consumer</b>	Terms used to describe a consumer registered to receive services from the TDMHMR service delivery system.
<b>CMS</b>	Claims Management System
<b>CMSconnect</b>	A Windows-based application that supports claims submission, Medicaid eligibility/service verification authorization inquiries, claim status inquiries, electronic remittance and status, and adjustment request submissions for Long Term Care claims.
<b>Component Code</b>	Unique code that identifies a state hospital, state school, state center, state operated community services, community MHMR center, or private ICF/MR provider. <i>You must provide this code each time you contact Central Office.</i>
<b>Comptroller Vendor Number</b>	Fourteen-digit number by which the State of Texas Comptroller's office identifies the provider.
<b>Contract Number</b>	Six-digit number that identifies the contract under which a consumer is receiving ICF/MR services.
<b>County of Residence (CARE)</b>	For this population, County of Residence is typically the county in which the consumer resides.
<b>Drop-down List</b>	A Drop-down list displays one valid value for the field it represents when a value is selected.
<b>Durable Medical Equipment (DME)</b>	Equipment (adaptive aids) that withstands repeated use and is primarily and customarily used for medical purposes. Equipment/appliances must be medically necessary in each case.
<b>ICAP Service Level</b>	The ICAP service level identifies the level of services needed by an individual as determined by the Inventory for Client and Agency Planning (ICAP) assessment instrument.
<b>Intermediate Care Facility for Persons with Mental Retardation (ICF/MR)</b>	The provision of institutional care and treatment for clients with mental retardation with an onset date prior to age 18. Services include room, board, and active treatment to help clients function as independently as possible. The program is administered by TDMHMR.

## ICF/MR Automated System Terminology, Continued

Term	Definition
<b>Level of Care (LOC)</b>	The classification of services provided in Medicaid reimbursed ICF/MR facilities. An ICF/MR Level of Care is based on medical diagnosis and professional evaluation of the consumer's needs. To receive Medicaid reimbursed ICF/MR services, a consumer must be eligible for a specific level of care.
<b>Level of Need (LON)</b>	The level of effort necessary for a facility to provide service to an ICF/MR consumer. The Level of Need is a factor in determining the payment rate for services to that client.
<b>Local Case Number</b>	Number given to identify an individual's records at a component. An individual is given a case number when he or she is first assigned to a component. If an individual is assigned to more than one component, that individual will have a unique local case number at each component.
<b>Logon Account Number (User Number)</b>	The number, assigned to each user by TDMHMR Central Office, that identifies the user and allows that user to access the network.
<b>MARS-G Vendor Number</b>	Ten-digit number by which TDMHMR's Financial Services Division Management Analysis and Reporting System for Government (MARS-G) identifies the vendor.
<b>Mental Retardation Authority (MRA)</b>	A mental retardation component designated by the department to carry out the legislative mandate to provide certain community-based mental retardation services and coordinate continuity of services to consumers who are members of the department's defined priority population. (See Texas MHMR act, TCS, Article 5547-201, Sec. 1/02) The department designates one MRA for each local service area. This is usually a community MHMR center, but may be a state operated community MHMR service or a state center if a county is not served by a community MHMR center.
<b>Non-State Operated Provider</b>	Private business that provides ICF/MR services and is not affiliated with a state facility or SOCS. Community MHMR Centers are considered non-state operated providers.
<b>Presenting Problem</b>	Initially perceived problem for which an individual needs TDMHMR services. Individuals are identified as probably needing one of the five following areas of services: mental health, mental retardation, substance abuse, early childhood intervention, developmental delay, or related condition (MR). This is not a diagnosis, but is used to identify an individual for further evaluation and/or service by TDMHMR. ICF/MR consumers will have a presenting problem of MR or Related Condition.
<b>Provider</b>	A person, group, or agency who has a contract to perform a service(s) for TDMHMR consumers. Examples include licensed nursing homes, day activity and health care facilities, home and community support agencies, and others who provide a service for a fee that is paid by TDMHMR.
<b>Radio Button</b>	Radio buttons are like the buttons on a car radio. By clicking one button, you deselect another.
<b>Registration</b>	Formal enrollment into the CARE system which establishes that an individual is registered to receive services from the TDMHMR system. Registration generates the CARE Client ID that is used to identify the person statewide.

## ICF/MR Automated System Terminology, Continued

Term	Definition
<b>Separation</b>	Administrative action that documents that an individual being served is leaving the TDMHMR service delivery system. In the CARE system, individuals are separated due to death or establishing legal residence out of state.
<b>Service Participant Group</b>	<p>Groupings designed to provide a structure for gathering data about members of the priority population who have specific characteristics that seem to influence the type and intensity of services required to meet their needs. Service participant groups are comprised of members of the priority population who:</p> <ul style="list-style-type: none"> <li>• <b>CB</b>: have a Challenging Behavior (with or without a mental illness diagnosis) which requires frequent intervention or regular monitoring. The severity of the behavior is such that it interferes significantly with daily living or learning activities.</li> <li>• <b>SB</b>: have a Severely challenging Behavior (with or without a mental illness diagnosis). The severity of the behavior is such that it seriously threatens the health and safety of this person or others. The management of the behavior is a primary consideration in planning the individual's activities.</li> <li>• <b>PD</b>: have a severe Physical Disability as evidenced by a need for an ongoing program designed and monitored by a professionally qualified habilitation therapist or specialist. Such programs are designed to alleviate the primary condition and decrease the effects of any secondary disability. These disabilities may include, but are not limited to, eating problems, ambulation problems, severe sensory (tactile, visual, and/or auditory) impairments, and other major physical disabilities.</li> <li>• <b>HC</b>: have a Health Care need so severe that its treatment and monitoring are the foremost considerations in planning the individual's activities. Immediate 24-hour response from nursing staff, weekly physician intervention, and monitoring of a health care plan by a professional nurse is often needed.</li> <li>• <b>TS</b>: need either Training or Support to enable or maintain their community arrangements for living, working, training, etc.</li> <li>• <b>EC</b>: are eligible to receive Early Childhood Intervention services.</li> <li>• <b>UC</b>: Unclassified.</li> </ul>
<b>State Operated Provider</b>	State facility (state school or state center) or SOCS (State Operated Community Services) that provides ICF/MR services.

## Calculating Level of Need (LON)

LON	Description	ICAP Service Level	Service Score Range	Other
1	Intermittent	7, 8, or 9	>= 70	
5	Limited	4, 5, or 6	40 – 69	
8	Extensive	2 or 3	20 – 39	
6	Pervasive	1	1 – 19	
9	Pervasive Plus	Any	Any	Must have a value of <b>2</b> in at least one of the following behavior items: 35. Self-Injurious behavior 36. Serious Disruptive Behavior 37. Aggressive Behavior 38. Sexually Aggressive Behavior

### Behavior Increase (both **ICF/MR** and **HCS/HCS-O/MRLA**):

If at least one of the behavior items 35 through 38 is a value of one, then a behavior increase is indicated. If the level of need has a value of 1, 5, or 8, then the level of need will be increased one level.

### Medical Increase (**ICF/MR only**)

If item 40 Nursing: Frequency Code has a value of 6 indicating that 181 or more minutes per week of nursing services are provided and item 39 Nursing: Service Provider has a value of 15 or 16 (15=Registered Nurse, 16=Licensed Vocational Nurse), then a medical increase is indicated. If the level of need has a value of 1, 5, or 8, then the level of need will be increased one level.

Note 1: A level of need 6-pervasive will never be increased to a level of need 9-pervasive plus.

Note 2: Cap guidelines for HCS/HCS-O/MRLA consumers is based on their level of need. If the information on the MR/RC Assessment form indicates a medical increase, then that consumer's cap guideline will be increased one level. If the level of need has a value of 1, 5, or 8, then the cost ceiling will be increased one level.

Note 3: In ICF/MR a consumer's level of need can only be increased one time. For example, if a consumer's MR/RC Assessment satisfies both the behavior criteria for an increase *and* the nursing criteria for an increase, then their level of need is only increased *one* level.

# ICF/MR Automated System Access Authorization Designees

Please designate one primary individual and one secondary individual at your component to authorize access to the Intermediate Care Facility for persons with Mental Retardation (ICF/MR) automated system and dialup access to the Health and Human Services Commission Network (HHSCNet). The request of more than one logon to this network will also require a non-refundable payment for that logon. This fee for one year of services will need to accompany the "Request for IRIS Access Code" form 4743. If you have any questions please contact Medicaid Administration at (512) 206-5577.

Dialup access to HHSCN is primarily used by private providers and **NOT** by state schools, SOCS, and community centers.

The responsibilities of these individuals are to:

- determine computer access based on an individual's duties and responsibilities
- request computer access using the ICF/MR Access Form (IS 098)
- change computer access if an individual's duties change
- delete computer access if an individual is no longer employed.

Mail this form to:

Texas Department of Mental Health and Mental Retardation (TDMHMR)  
Larry North, Contracts Director  
P.O. Box 12668  
Austin, TX 78711-2668

Do not fax this form. Forms requesting access to the automated system must be signed by one of the individuals designated. Access forms will not be processed without the appropriate signatures on file at TDMHMR. Full signature of primary or secondary designees must be present on each access form; initialed forms will not be accepted.

Please note: A copy of the legislation relating to the creation and prosecution of offenses involving computers is attached.

The access form and instructions for completing the form are attached. If you have any questions regarding this procedure, please contact Larry North at (512) 206-5708.

<b>COMPLETED FORM IS TO BE MAILED TO AND RETAINED BY HUMAN RESOURCES IF NOT ALREADY ON FILE</b>											

As a **full time or part time employee** with privileges at Texas Department of Mental Health and Mental Retardation (TXMHMR), you may have access to what this agreement refers to as "confidential information". The purpose of this agreement is to help you understand your duties regarding confidential information.

Confidential information includes patient/client identifying information, patient/client medical information, or any information that is classified confidential by federal or state law. You may have access to some or all of this confidential information through a computer system or through your associated activities with TXMHMR.

Confidential information is valuable and sensitive and is protected by law and by strict TXMHMR policies. The intent of these laws and policies is to assure that confidential information will remain confidential - that is, that it will be used only as necessary to accomplish the organization's mission. As an employee, you are required to conduct yourself in strict conformance to applicable laws and TXMHMR policies governing confidential information. Your principle obligations in this area are outlined below. You are required to read and to abide by these duties. The violation of any of these duties will subject you to discipline which might include, but is not limited to, **termination of employment and to legal liability.**

**You understand that** you will have access to and **are not to divulge** confidential information which may include, but is not limited to, information relating to:

- ❖ Patient/client (such as records, conversations, admittance information, diagnosis, prognosis, treatment plan, financial information, etc.)
- ❖ ANY INFORMATION by which the identity of a client can be determined, either directly OR indirectly.
- ❖ Employees, contractors, volunteers (such as home addresses, home phone numbers, social security numbers, etc.)
- ❖ TXMHMR information (such as financial information, internal reports, memos, contracts, peer review information, communications, proprietary computer software, etc.)
- ❖ Third party information (such as vendor information, etc..)

Accordingly, as a condition of and in consideration of your access to confidential information, **you promise that:**

1. You will use confidential information only as needed to perform legitimate duties. This means, among other things, that:
  - ♦ You will only access confidential information for which you have a need to know; and
  - ♦ You will not in any way divulge, copy, release, sell, loan, review, alter, or destroy any confidential information except as properly authorized within the scope of your activities affiliated with TXMHMR; and
  - ♦ You will not misuse confidential information or carelessly handle confidential information.
2. You will safeguard and will not disclose your access code/password or any other authorization you have that allows you to access confidential information.
3. You accept responsibility for all activities undertaken using your access code/password and other authorization.
4. You will report activities by any other individual or entity that you suspect may compromise the confidentiality, integrity or availability of confidential information. Reports are made in good faith about suspect activities and will be held in confidence to the extent permitted by law, including the name of the individual reporting the activities.
5. You understand that your obligations under this Agreement will continue after termination of your association with TXMHMR. You understand that your privileges hereunder are subject to periodic review, revision, and if appropriate, renewal.
6. You understand that you have no right or ownership interest in any confidential information referred to in this Agreement. TXMHMR may revoke your access code or other authorized access to confidential information. At all times during your association with TXMHMR, you will safeguard and retain the confidentiality, integrity and availability of confidential information.
7. You will be responsible for your misuse or wrongful disclosure of confidential information and for your failure to safeguard your access code/password or other authorized access to confidential information. You understand that your failure to comply with this Agreement may also result in the loss of access privileges at TXMHMR.

I understand that instructions concerning proper authorization for disclosing confidential information are available in the Commissioner's Rule on Client-Identifying Information, Chapter 403, Subchapter k. and that if I have ANY questions concerning whether a disclosure is properly authorized I will seek out advice / legal counsel before I disclose the requested information.

<b>COMPLETED FORM IS TO BE MAILED TO AND RETAINED BY TXMHMR INFORMATION SERVICES</b>											

As an employee of a mental health and mental retardation  Community Center  Private Provider  Contracting Agency with privileges at Texas Department of Mental Health and Mental Retardation (TXMHMR), you may have access to what this agreement refers to as "confidential information". The purpose of this agreement is to help you understand your duties regarding confidential information.

Confidential information includes patient/client identifying information, patient/client medical information, or any information that is classified confidential by federal or state law. You may have access to some or all of this confidential information through a computer system or through your associated activities with TXMHMR.

Confidential information is valuable and sensitive and is protected by law and by strict TXMHMR policies. The intent of these laws and policies is to assure that confidential information will remain confidential - that is, that it will be used only as necessary to accomplish the organization's mission. You are required to conduct yourself in strict conformance to applicable laws and TXMHMR policies governing confidential information. Your principle obligations in this area are outlined below. You are required to read and to abide by these duties. The violation of any of these duties will subject you to discipline which might include, but is not limited to, **termination of access privileges, termination of employment, and to legal liability.**

**You understand that** you will have access to and **are not to divulge** confidential information which may include, but is not limited to, information relating to:

- ❖ Patient/client (such as records, conversations, admittance information, diagnosis, prognosis, treatment plan, financial information, etc.)
- ❖ ANY INFORMATION by which the identity of a client can be determined, either directly OR indirectly.
- ❖ Employees, contractors, volunteers (such as home addresses, home phone numbers, social security numbers, etc.)
- ❖ TXMHMR information (such as financial information, internal reports, memos, contracts, peer review information, communications, proprietary computer software, etc.)
- ❖ Third party information (such as vendor information, etc..)

Accordingly, as a condition of and in consideration of your access to confidential information, **you promise that:**

1. You will use confidential information only as needed to perform legitimate duties. This means, among other things, that:
  - ◆ You will only access confidential information for which you have a need to know; and
  - ◆ You will not in any way divulge, copy, release, sell, loan, review, alter, or destroy any confidential information except as properly authorized within the scope of your activities affiliated with TXMHMR; and
  - ◆ You will not misuse confidential information or carelessly handle confidential information.
2. You will safeguard and will not disclose your access code/password or any other authorization you have that allows you to access confidential information.
3. You accept responsibility for all activities undertaken using your access code/password and other authorization.
4. You will report activities by any other individual or entity that you suspect may compromise the confidentiality, integrity or availability of confidential information. Reports are made in good faith about suspect activities and will be held in confidence to the extent permitted by law, including the name of the individual reporting the activities.
5. You understand that your obligations under this Agreement will continue after termination of your association with TXMHMR. You understand that your privileges hereunder are subject to periodic review, revision, and if appropriate, renewal.
6. You understand that you have no right or ownership interest in any confidential information referred to in this Agreement. TXMHMR may revoke your access code or other authorized access to confidential information. At all times during your association with TXMHMR, you will safeguard and retain the confidentiality, integrity and availability of confidential information.
7. You will be responsible for your misuse or wrongful disclosure of confidential information and for your failure to safeguard your access code/password or other authorized access to confidential information. You understand that your failure to comply with this Agreement may also result in the loss of access privileges at TXMHMR.

I understand that instructions concerning proper authorization for disclosing confidential information are available in the Commissioner's Rule on Client-Identifying Information, Chapter 403, Subchapter k, and that if I have ANY questions concerning whether a disclosure is properly authorized I will seek out advice / legal counsel before I disclose the requested information.
